

Dear Sixth Grade Parents,

Welcome back! Sixth grade students have a new opportunity this school year. Starting 2014, Christ the King Catholic School began participation in a teacher/student mentoring program. Our goal in adopting a mentoring program is to increase and strengthen relationships between our student body and their school family.

Many faculty members volunteer to serve as mentors. Students have been placed in groups of 7 with each teacher. Mentoring groups will meet monthly from 12:05-12:20. Students eat lunch with their group and miss no academic time.

Christ the King, as well as many schools in the Archdiocese of Mobile, are adopting a mentoring program. Research shows that students are better equipped to reach their academic potential when they have strong relationships at school. For the last three years, we have had overwhelmingly positive feedback from both our students and teachers.

Our teacher/mentors have a desire to know their students in a causal relationship as an advocate that not only cares about them, but is available to listen to them. Counseling is still available for student who wish to talk to an adult privately.

While participation is voluntary, it is our hope that all sixth graders will take advantage of this opportunity. Mentors will begin meeting with their students in September. Please do not hesitate to call if you should have questions.

Thank you & God Bless,

Jan Quint
Christ the King Catholic School Counselor

Please return to your homeroom teacher by Friday, 9/1/17

I give my child _____ permission to participate in the mentoring program at CTKCS.
